Welcome to our Reach out to our Future Partner Website Link <http://hive.csis.ul.ie/4065/group05/>

### Summary of Progress to date

All of the following are in Draft mode and are subject to change, the skeleton of the website is however complete and all pages can be accessed and are presenting similar to our planned final design.

Welcome page is functioning but maybe changed

Navigate to the screens through the Meeting Space Screen

Please review status of screens in table below.

We plan to standardise the look and feel all pages at a later stage and also use centralised css and php library.

Once successful the meetingspace screen is presented showing the following:

People who you are chatting with (from here you can launch the chat option)

People who are interested in you and People who are matched with you.

For now the functionality to process functionality such as Goodbye is not coded
